**Descargar libro en línea PDF epub mobi Español IBEX 35 Rubén Juste** , Este libro arroja luz sobre las múltiples idas y venidas por las que un alto cargo del Estado pasa a formar parte de una gran empresa, o un empresario pasa a ser un funcionario del Estado. Estos viajes, poco explorados hasta ahora, son un símbolo de la historia reciente de España, cuyo resultado es un Estado progresivamente derrotado. Sin embargo, desde el inicio de la crisis en 2008, solo una empresa del IBEX 35 ha sido liquidada: Martinsa-Fadesa. El índice bursátil permanece así inmaculado, mientras el Estado ha pasado por un proceso de adelgazamiento, reducción de competencias económicas y limitación del gasto.

Con el trasfondo de una base exclusiva de datos sobre puertas giratorias entre el Estado y el IBEX 35, Juste trata de desvelar el sentido de estas. La línea que une dos polos, dos esferas, la política y la económica, que se tocan a través de los dedos de los miembros de los consejos de administración y los miembros del aparato del Estado, y cuyo movimiento va acompañado de una transferencia de recursos y una

legislación. IBEX 35 puede aclarar el dilema que plantean las puertas giratorias: ¿es el Estado el que regula y condiciona el devenir de las grandes empresas, o son las empresas las que han pasado a tener un mayor control de determinadas áreas del Estado?
